PROFESSIONAL SUMMARY

Experienced Front-End Engineer with over 6 years of hands-on experience in developing dynamic web applications. My expertise lies in leveraging cutting-edge technologies such as React, Angular, and JavaScript to create seamless and user-friendly interfaces. Throughout my career, I have consistently demonstrated a strong commitment to delivering high-quality solutions that align with industry best practices and user experience standards.

- Proficient in **JavaScript** (ES6)/ **TypeScript**/ **React**/ **Angular** and **NodeJS**.
- Proficiency in building well-tested, functional, and reusable UI components.
- Profound expertise in developing Single Page applications (SPA) and server-side rendering (SSR).
- Firm grasp of Object Oriented Programming (OOP) principles.
- Understanding of WCAG Accessibility.
- Experience with State management library **Redux** and knowledge of cross-browser compatibility.
- Experience with GitHub and Continuous Integration/ Continuous Deployment.
- Experience with implementing Test-Driven Development (TDD) with unit testing frameworks like Jest, Jasmine, Karma.
- Experience in full development life cycle, including breaking down work, code review, testing, source control, build processes.
- Exemplary aptitude for debugging, astute analytical problem-solving and focused on quality and timely delivery.
- Experience in working independently as well as in a team in a fast-paced environment.
- Took on a mentoring role, guiding junior developers in their skillsets, coding best practices, collaboration skills and effective troubleshooting techniques.

SKILLS

- Web Development: JavaScript, TypeScript, React, Angular, NodeJS, HTML, CSS, Tailwind CSS, Bootstrap, jQuery, Jest, Webpack, Figma, NextJs, Jira, Git, Shopify, GraphQL
- Agile Methodologies: Scrum

WORK EXPERIENCE

HERE SOLUTIONS INDIA PVT LTD

Senior Software Engineer | Bangalore, India | December 2022 – November 2023

- Migrating Backbone.js application to **React** for maintainable, testable, and quality code and responsive web design.
- Integrated geocoding and routing functionalities from HERE Maps into the application, resulting in improved navigation and location-based services for users.
- Collaborated with the team to troubleshoot and optimize the implementation of Here Maps services, ensuring a smooth and high-performance user experience.
- Built automation pages using JavaScript, jQuery, AJAX, and Bootstrap, API integration with REST APIs.

REACTORE INDIA PVT LTD

Software Engineer | Bangalore, India | September 2017 – December 2022

- Designing and implementing a low code platform using **Angular** and MaterialUI that empowers businesses to build, deploy and manage their own enterprise-grade web **SaaS** applications.
- Experience in communicating with cross-platform engineers, and senior management to collect requirements, describe software features, technical designs, and strategy.
- Creating documentation, debugging & troubleshooting.
- Creating own **Angular library** and publishing for internal usage.
- Contribution to the design and architecture of projects.
- Experience in 3D visualization with Three.js library.
